

About FDSI Logistics

Since 1985, FDSI Logistics (www.fdsi.com) has collaborated with businesses of all sizes and across many different industries working as a third party logistics partner. We provide personalized services and build long-term relationships that help position our partners for success.

Advances in technology, the formation of new alliances, and innovations in transportation and distribution have created dynamic opportunities for all concerned with logistics. FDSI is proud to help our partners find a better way to get it done.

Managing more than \$1 billion in transportation through an acquisition by Cardinal Health, FDSI dispatches over 160,000 parcels, 50,000 loads and manages over 35,000 FEUs (40-foot equivalent units) annually. Whether you are shipping an item across town or across the country, with our customized services and proprietary technology, FDSI can meet *your* specific logistics needs to save you time, manpower, and costs.

Industries FDSI Logistics supports

FDSI has experience across a broad range of industries. For over 30 years we've worked inbound projects for most of the top hotel brands across the country. We also have extensive experience moving large, odd-shaped freight, including, machinery, tractors, forklifts, generators and the like. Over the years, we have provided inbound freight services for dozens gas and utilities companies.

These are a sample of the industries we are currently working with and helping our customers control their freight is a speciality of FDSI Logistics. We can help reduce your costs, provide you with visibility, and add value your supply chain.

Advantages for PCA Members in working with FDSI Logistics

FDSI is a Cardinal Health company, which ranks #14 on the Fortune 500. As one of the largest dispatchers of parcel shippers globally, we understand the importance of overnight shipping. With FDSI, you have local representation right here in Phoenix, but you also have the buying power of large company. And with every dollar you spend with FDSI, a percentage goes back to PCA!
